" I am a small-town girl from Rampurhat, having moved to Kolkata just a couple of years back, with a Bengali medium educational background, I had my inhibition about achieving any form of success in pursuing an MBA degree, especially when fluent language skills form a vital part of achieving success in this field. The faculty members of IISWBM helped nurture my skills and improve them, they provided me with various platforms so that I could learn team building and leadership skills and through their internship program I had finally gained the confidence to tackle on the job real world issues. "Contributing to the cause of Environment has always been my passion since I was fascinated by the myriad aspects of the Environment in my school days. This has driven me to pursue an M.Sc. in Environmental Science, but I was still feeling amiss. I wanted to do something upfront, that would have a direct and positive impact on the Environment. And this is when, the Environment Management course of IISWBM gave me a direction to fulfil my goals, with practical knowledge and professionalism. The esteemed faculty, guest lecturers and industrial stalwarts, with a very methodical, yet unique approach, amalgamated the core concepts of Environmental Science into the world of Business and Management. Today, it is their consistent support and patient perseverance, fueled by my hard work, that has helped me to emerge as a successful manager. I am indebted to the Placement Committee of IISWBM for providing me the platform to smoothly join an esteemed organisation like Ernst & Young Global Delivery Services".
