Indian Institute of Social Welfare and Business Management (IISWBM) is the first Management Institute of the country. It was established in 1953 by Dr. B. C. Roy, the then Chief Minister of West Bengal, as the Founder President. The Government of India, in recognition of 50 years of glorious existence of the Institute as the first B-school in the country, released a commemorative postage stamp on IISWBM on 25th April 2004 in New Delhi.

As the name of the Institute suggests, IISWBM was historically set up with a view to social welfare. The primary objective was, and remains till today, not only to churn out managers for the corporate sector but to train students for other activities relevant in the contemporary socio-economic scenario of the country. The focus of the courses remains interdisciplinary to give the students a holistic view of any organization.

IISWBM's mission is to impart management education, develop managerial talent and sharpen the competitive managerial abilities of its students so that they can outperform in the borderless business world of tomorrow.

IISWBM's philosophy is to develop right managers for the Indian business scene keeping in mind the commitment made by Pandit Jawaharlal Nehru during the laying of the foundation stone, i.e. "an intellectual experience linked with the sense of social responsibilities". Our philosophy can therefore be explained by our name IISWBM, i.e.

- Indian values
- Innovative ideas
- Sincerity in performance
- Worshipping knowledge
- Broadening horizons
- Making managers of tomorrow

PhD Programme in Public Systems, Social Welfare & Management

It is a full-time/part-time doctoral programme that offers students opportunities for advanced studies and research in different specializations related to Management Science. The Programme aims to prepare students for careers in teaching and research in management studies and in related disciplines, and for careers in the government, in industry, and in other organizations that require advanced analytical and research capabilities.

The PhD programme in Public Systems, Social Welfare and Management is designed to encourage original research on critical and contemporary issues of Public Systems (viz. environment management, energy management, transportation & logistics management, health care & hospital management, sports management, etc), Social Welfare and Business Management.

The PhD Programme in Public Systems, Social Welfare and Management is guided by the University of Calcutta (Regulation for the Degree of Doctor of Philosophy, PhD), Regulations 2016 and other relevant rules and orders of the University.

AREAS OF RESEARCH

The broad areas of research will include any issue of Public Systems, Social Welfare and Management that has not been explored in depth in academic and scientific institutions in the country or abroad and on which there is scope for creation of new knowledge and understanding or add new values to the existing knowledge on the subject. Some of the indicative broad themes of such research may include the following, but these are by no means exhaustive, and scholars selecting any theme have to further narrow down the focus for detailed and comprehensive exploration and analysis:

- Marketing Management
- Organizational Behaviour & Human Resource Management
- Account & Financial Management
- Production & Operation Management
- Decision Science
- Information System
- Environment Management
- Energy Management
- Healthcare & Hospital Management
- Transportation and Logistics & Supply Chain Management
- Sports Management
- Labour Welfare
- Community Development
- Child & Family Welfare
- Criminology
